Write Short & Sweet Prompts

Wrong Way

Hello! I hope you're doing well. I'm working on a research paper and need a detailed analysis of the economic, social, and political factors that contributed to the fall of the Roman Empire. Please include quotations from historical figures, statistical data where applicable, and ensure its comprehensive and insightful.

Right Way

Analyze the economic, social, and political factors that contributed to the fall of the Roman Empire.

Avoid Chain-of-Thought

Avoid Chain-of-Thought

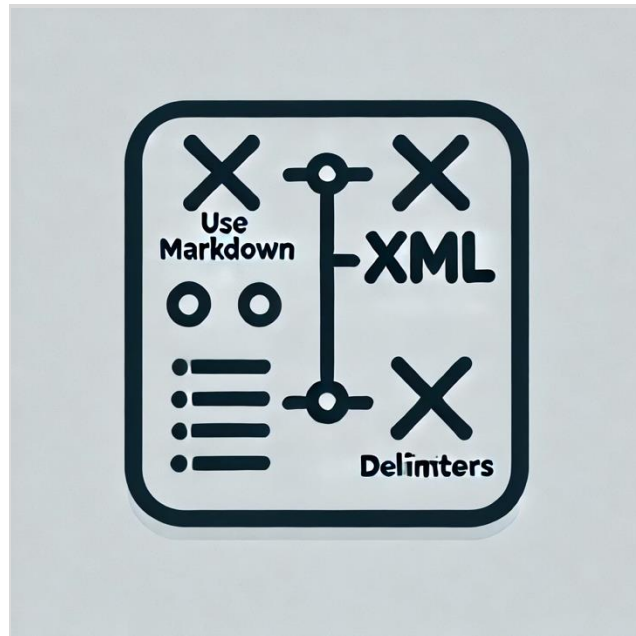

Wrong Way

Solve the following problem and explain each step of your reasoning in detail: If a car travels at a constant speed of 60 km/h, how long will it take to cover a distance of 180 km? Think step by step.

Right Way

How long will it take a car traveling at 60 km/h to cover 180 km?

Use Markdown, XML, or Delimiters

Wrong Way

Read and summarize these articles: Article One discusses the impact of renewable energy on the economy Article Two covers advancements in artificial intelligence

Right Way

Summarize the following articles:

"" Article One: Discusses the impact of renewable energy on the economy. ""

"" Article Two: Covers advancements in artificial intelligence. ""

Don't Dump Context

Wrong Way

Based on all the following documents, write a report on climate change:

Document 1: Comprehensive history of global climate patterns.

Document 2: Detailed agricultural statistics from the past century.

Document 3: Economic reports unrelated to climate.

Right Way

Based on the following document, write a report on climate change:

"" Document: A comprehensive history of global climate patterns, focusing on temperature changes, greenhouse gas emissions, and human activities influencing climate. ""

Wrong Way

You are an expert travel guide who provides detailed itineraries.

Right Way

Plan a 7-day trip to Japan.

When should we use each of OpenAI's models?

Different Tools for Different Fights

OpenAI o1-preview
(*pseudo oracle*)

Highly creative and targeted tasks – more ‘meta’ questions and tasks.

e.g. here’s situation in my company, here’s factors to consider, please help

OpenAI o1-mini
(*gpt prodigy*)

Somewhat formulaic mathematical and coding tasks.

e.g. look at this table of numbers and help me do number crunching to estimate XYZ

GPT4o, GPT4o-mini, etc

For tasks that don’t need overthinking.

e.g. here’s situation in my company, here’s factors to consider, please help
